

## The First Edition

Welcome to the inaugural edition of the ACSI Spotlight, our very own e-newsletter! Designed as a bi-monthly publication, this is a platform to bring you the latest on what our clinician scientists and innovators are up to, share highlights on recent ACSI events, and keep you informed about our upcoming opportunities to connect and collaborate. We look forward to sharing stories of impact, inspiration and innovation as we continue to foster a vibrant community of trailblazers in clinical science and beyond.

## Our Stars, Their Stories

Where passion meets purpose

ASSOCIATE PROFESSOR SUNNY WONG  
Associate Professor, LKCMedicine, NTU  
Consultant, TTSH

"Work hard, be kind, and amazing things will happen."  
— Conan O'Brien

This quote beautifully emphasizes the power of simple virtues in creating meaningful impact. It is through these genuine interactions with good people that great ideas and works are born.

Becoming a Clinician-Scientist (CS) has been a rollercoaster of curiosity, persistence, and excitement along the way. Balancing roles across NHG and LKCMedicine allows me to explore gastroenterology and microbiome research while staying connected to patient care.

I'm grateful for the kindness, camaraderie, and good humor that make this journey meaningful. Together, we'll create an environment where great ideas flourish, mentorship is inspiring, and even hard work feels like fun.

## Highlights

ACSI kickstarted 2025 with an energizing networking evening at Woodlands Health Campus, click on the picture to find out more!

## A Year to Remember

2024: A Year of Growth, Progress, and Success

Since our inception in September 2023, ACSI has hosted numerous events, and we look forward to a fruitful 2025!
