WHAT'S IN THE TEST?

The UCAT is a multiple choice test. It takes approximately 2 hours. It consists of four separately timed subtests which assess a range of mental abilities identified by university medical and dental schools as important.

VERBAL REASONING

Assesses the ability to critically evaluate information presented in written form.

DECISION MAKING

Assesses the ability to make sound decisions and judgements using complex information.

QUANTITATIVE REASONING

Assesses the ability to critically evaluate information presented in numerical form.

SITUATIONAL JUDGEMENT TEST

Measures the capacity to understand real world situations and identify critical factors and appropriate behaviour in dealing with them.

HOW DO I BOOK A TEST?

Registration for the UCAT is a two-step process of creating an account and booking a test, using the Pearson VUE registration system (refer to the **REGISTER** page on the UCAT website). We strongly recommend you book as early as possible as appointments may be limited towards the end of testing. During registration you will need to indicate that you are applying to 'Lee Kong Chian School of Medicine (NTU, Singapore)' to ensure that LKCMedicine receives your results in early November. You must also include your UCAT candidate ID in your online application for admission to LKCMedicine.

ACCESS ARRANGEMENTS

If you have any special educational needs and require access arrangements such as additional time or rest breaks in exams, please apply for these in advance of testing via the UCAT website (refer to the **ACCESS ARRANGEMENTS** page for more details).

It is essential that you take the correct, signed, photographic identification to the test centre, otherwise you will not be permitted to test. Please ensure you've read the **ID POLICY** page on the UCAT website ahead of time to avoid any issues.
