Matthew Lavelle
Lead Scientist (Rating Innovation)
BeZero Carbon

Matthew Lavelle joined BeZero Carbon in 2021, initially serving as a rating scientist across all sectors. During this time, he specialised in the assessment of REDD+ and Improved Cookstoves projects, gaining deep exposure to both nature-based and technology-based solutions. As Lead Scientist for Ratings Innovation, he now focuses on developing internal tools and systems to enhance BeZero's ratings processes and commercial reach.

Prior to BeZero, Matthew worked for a UK-based renewable energy company. A passionate naturalist, he also holds an MSc in Ecological Economics from the University of Edinburgh and a BSc in Biological Sciences from Durham University.
