

**Daryl Aw**  
Director and Founder  
Skybots

Daryl Aw is the Founder of Skybots Pte Ltd, a Singapore-based firm specialising in Artificial Intelligence (AI) and Robotic Process Automation (RPA). Skybots has delivered over 1,000 automation solutions and AI-powered chatbots, helping organisations across multiple industries enhance productivity, streamline workflows, and equip their teams with intelligent digital tools.

Daryl specialises in designing and building AI copilots and ChatGPT-style agents tailored for finance and accounting teams, enabling practical adoption of AI in day-to-day operations. Under his leadership, Skybots works closely with clients to embed AI and automation into business processes, delivering measurable improvements in efficiency, accuracy, and scalability.

In addition to consulting and solution development, Daryl leads hands-on training programmes that empower professionals to apply AI and RPA effectively within their organisations. He is the only Chartered Accountant globally to be recognised as a UiPath Most Valuable Professional (MVP), a two-time AI Award winner in 2024 and 2025, and a UiPath RPA Hackathon Champion in 2021.

A former auditor with EY Singapore, a former lecturer at Singapore Polytechnic, and a proud alumnus of Nanyang Business School, Daryl continues to champion practical digital transformation by bridging deep accounting expertise with real-world AI and automation innovation.
