Course Code	Course Title	Description	Academic Unit
MGE902	Basic Concepts and Techniques in Qualitative Data Analyses	This course aims to introduce participants to the methodology and methods behind qualitative research. It also aims to engage participants with fundamental notions such as the knowledge and viewpoints that frame the qualitative research paradigm and the common qualitative research methods which are often used within it. Participants will be provided with hands on opportunities to engage with the key ideas intellectually and put them into practice through mini assignments involving data analysis.	2
